

I Want You

...to have a
\$1,500
Tax Credit

Just purchase any qualifying heating or air conditioning equipment and you'll earn tax credits of up to \$1,500 on your 2009 taxes.

Receive Up To \$1500 From the Government!

Thanks to the recent government "economic stimulus" program, you can now earn up to \$1,500 in tax credits when you replace your heating or air conditioning equipment.

It's not a tax deduction, it's a dollar for dollar credit! If you have a tax liability of \$2,500 at the end of the year, you'll only owe \$1,000 if you purchase qualifying equipment this year.

Of course, the best thing is you'll keep saving on your utility bills year after year thanks to the improved efficiency of your system.

Just ask our representative to explain how you can take advantage of this time-sensitive incentive. After all, it's not every day that Uncle Sam wants to put money *in* your pocket!
